ANALYTICS PROJECTS

Market Entry and Monetization Strategy – Meturi CRM App

Jan 2026

- Conducted market analysis using JTBD framework to identify target segments; estimated TAM and SOM for Indian market with revenue forecasting and user acquisition projections
- Designed three-tier monetization model (Freemium + Rs. 99/month + analytics add-on) with break-even analysis, CAC calculations, and multi-channel distribution strategy for user onboarding optimization

E-Commerce Pricing Optimization and Revenue Impact Analysis

Dec 2025

- Evaluated pricing elasticity and discount impact on revenue using Kaggle data; performed customer segmentation revealing three buyer personas with varying price sensitivity through statistical analysis
- Built dynamic Excel models with scenario analysis to forecast revenue under different pricing strategies; created Power BI dashboard for revenue trends, CLV metrics, and data-driven pricing decisions

Video Game Sales Analysis – Business Intelligence and Data Mining

Nov 2025

- Performed data mining on 10,000+ game records from Kaggle conducting trend analysis across platforms, genres, and publishers; executed data cleaning and quality checks in Excel before Power BI modeling
- Implemented DAX measures and created interactive dashboards for KPI tracking; delivered actionable insights revealing PS2 era dominance with concurrent PC gaming growth supporting strategic investment decisions

PROFESSIONAL EXPERIENCE

Founder and Content Strategist

Aug 2021 – Present

Satyug Tales

Dharwad, India

- Scaled digital content platform to 800,000+ organic views through data-driven audience analysis and targeted distribution strategies; achieved 17,000+ views on single Instagram Reel through A/B testing and engagement optimization
- Managed end-to-end project lifecycle coordinating cross-functional teams; leveraged Google Analytics to track KPIs, identify patterns, and refine content strategy resulting in consistent audience growth
